| Maximum Marks | 4 Marks |

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

| User Type | Functional Requirement (Epic) | User Story Number | User Story / Task | Acceptance criteria | Priority | Release |
|-------------------------|-------------------------------|-------------------|---|--|----------|----------|
| PASSENGER (Mobile user) | Booking registration | USN-1 | As a passenger, I book the ticket for the journey by entering my personal information. | I can access the web link to install the application. | High | Sprint-1 |
| | Confirmation | USN-2 | As a passenger, I will receive confirmation of the booking once I have registered for the application | I can receive confirmation email & click confirm | High | Sprint-1 |
| | Application registration | USN-3 | As a passenger, I can register for the application through the weblink. | I can register & access the application through google Login | Low | Sprint-2 |
| | Application access | USN-4 | As a passenger, I can access the application during my travel for resolving my issues. | | Medium | Sprint-1 |
